"Exemption (s) to Bid Conditions and Specifications"

The listed Specifications on the invitations to bid have the UniMac 105-pound premium washer/extractor unit listed with 350 G-Force Extract Speed, this is a typo made by me when I first quoted Mark Tanner of the Justice Center Jail last year.

The correct G-Force Extract Speed is 300 G-Force Extract Speed and has been listed on the new quote under the descriptions and specifications column. All other specifications are accurate and true.

Respectfully: Don Whisenhunt

Bid for: Justice Center Washer/Dryer Units

Warranty Specifications: All manufacture warranties are included in documents. Dynamic Sales and Service adds our own 90-day labor warranty on all new machines. It does not cover mishaps due to misuse or debris in drain or fill valves. Only defective parts. Warranties begin on installation of units and are registered with the manufacturer by Dynamic Sales and Service.

Washers come with the manufacturer's warranty on all parts for three years (36 months), the frame and cylinder shaft assembly from breakage during the first ten years (120 months), the cylinder bearings bearing seals during the first ten years (120) months. Parts only, no assemblies.

Dryers come with the manufacture's warranties on any part of the unit during the first three years (36 months)

If a buyer wants to repair units, they can send us defective parts to our main office and we will send them a new part during the warranty period, must include the model and serial number of the machine's ID sticker. Freight not include.

Respectfully: Don Whisenhunt
