

AGENDA ITEM FOR ADMINISTRATIVE MEETING

() Discussion only

() Action

FROM (DEPT/ DIVISION): UCSO/Criminal

PROGRAM: 15600

SUBJECT: Program Specific Equipment – Forensic Workstation

Background:

UCSO conducts many investigations a year where information from cellular devices is crucial as evidence and must be forensically extracted and analyzed from the device. Examples of case types include homicide, child sexual abuse, and human trafficking. With the current standard computers at UCSO, it can take up to 24 hours or more to extract the needed information/evidence. UCSO did research and asked neighboring jurisdictions what they are using, and has identified the Intel Forensic Workstation as being one of the industry standards. This setup will allow data analyzation to be completed in less than two hours for most devices, thereby speeding up the investigations. UCSO included IT in its analysis, and IT staff confirm this workstation will meet the need. The item can be charged to Program Specific Equipment, line# 1010-20-15600-550006.

() ACTION REQUESTED:

Approve the purchase of one (1) Intel Forensic Workstation for a purchase price of **\$19,918.00** from Sumuri.
