

NARRATIVE:

The purpose of this survey is to set a property corner which was removed during pipeline construction. The fence line which had been torn out for said construction had been rebuilt when I started this survey on 2/3/93 and it is located as shown on my detail sketch.

The corner which was replaced is the Southwest corner of that tract of land deeded to Gossett E. Johnston, et ux, recorded on R. 81, Page 203, Umatilla County Deed Records. Said tract was surveyed along with several others in 1979 by Tom Lagier for Ledbetter, (Co. #Q-1120-B).

This survey retraces Lagier's survey and the bearings are based on that 1979 survey.

NOTE: The original E-W-FENCE Lies South of Lagier's surveyed Line.
