Mr. Frank Hayes  
County Engineer  
Umatilla, County  
Pendleton, Oregon

Dear Sir:

The following is an abstract of the field notes of a survey a made for Mr. Denio in Section 14, T.5S., R.31E., W.M.

Found the section corner common to sections 11, 12, 14 and 13 T.5S., R.31E., W.M., to be a fence corner with a large pile of rock immediately beneath said corner. Established the line between sections 14 and 13 as the north south fence line as originally built. Established the northerly line of the right-of-way of the old county road, through the city of Ukiah and on the east side of town, from two monuments, one inch iron pipes buried in the ground, and approximately 400 feet apart.

An intersection of the northerly right-of-way of the old county road extended to the section line between sections 14 and 13, and the section line between sections 13 and 14 was established by intersecting these two lines.

The survey was then accomplished according to the accompanying map.

Sincerely yours,

  
Frank R. Ofner

cc Mr Denio  
Oregon Title Insurance Co.
