Albion Canon May 2^d 1889

To the Hon. County Court
Umatilla County, Oregon.

We, the undersigned, your viewers on Road N^o 326 would respectfully report that we met with John C. Arnold, Co. Surveyor at the time & place appointed for the same, & were qualified as directed by law, we then procured suitable assistance & proceeded to view out & survey said said Road as prayed for in the petition, as near as, in our opinion a good road can be made at a reasonable expense. After surveying the Road along the East side of Spier's Canon, as specified in Petition, we found that the cost necessary to build the road would be more than could be met by the petitioners; & since the said Road 326 is, in our opinion of great need, we called Joseph Klein, owner of the land on the West side of Spier's canon & adjacent the line of said Road as petitioned for, who, when he saw that the Road would not otherwise be made consented to allowed the Road to be surveyed on the West side of said Canon, a thing which he would not consent to do with the petitioners for said Road, or this route would have been specified in the petition. We therefore took up the Road as surveyed on the East side of Canon & located the same upon much better ground & many less angles on the West side of the Canon as described. We kept as close to the line petitioned for as would give us a good Road, & recommend that said Road be located on the survey made under our viewing as the same is approved by all parties concerned.
