 The bearing shown on Main St. was taken from the said Wallulis survey. The monuments used for control are the three conc. nails shown on Second St. that I set in 1970 and found to be undisturbed. The angles used are from the surveys done by the above ref. # 1, 2, 3, 4 and they are within 0° 0' 15" of the angles used in Ref. # 5. above.

Ref. # 1 & 2 were not found in the Co Surveyor's records and are made apart of this narrative and copies submitted herewith.  
 Ref # 5 above was found in Elmer Ringring's files in the Assessor's office but not in the Co. Surveyor's files.

**NOTE :** The Six Monument Pins set marking Mr. Johnson's lot corners are 5" and 3/4" by 36" long iron rebar stamped "RLS 1333" on the side of the top.
