

- denotes est. 98" x 30" iron pin with aluminum cap stamped P.L.S. 933
- denotes found monument as noted
- x- denotes fence

NARRATIVE:

The purpose of this survey is to determine the boundaries of that parcel of land owned by J.M. Manufacturing Company located in Sections 11 & 14, Township 5 North, Range 28 East, W.M., and to show the existing fence lines. This was accomplished by tying the fence from existing property boundary points that were found as shown on this drawing and setting those points that were no longer in the ground as shown on this drawing. Bearings are based on a survey by Wayne Harris Co Inc. for the Port of Umatilla, 1972, County Survey No. 71-213-C and a survey by Humbern Engineering Co for the Port of Umatilla, 1982, County Survey No. 82-03-C.
