Narrative of Survey

A survey to describe a parcel of land. Survey commenced December 13, 1999. Instrument used was a Topcon GTS2-06. Four angles were measured by repetition for the control traverse.

I found no monuments related to the Deed as recorded in 1997 in Reel 309 of Deeds at page 941, records of Umatilla County, Oregon.

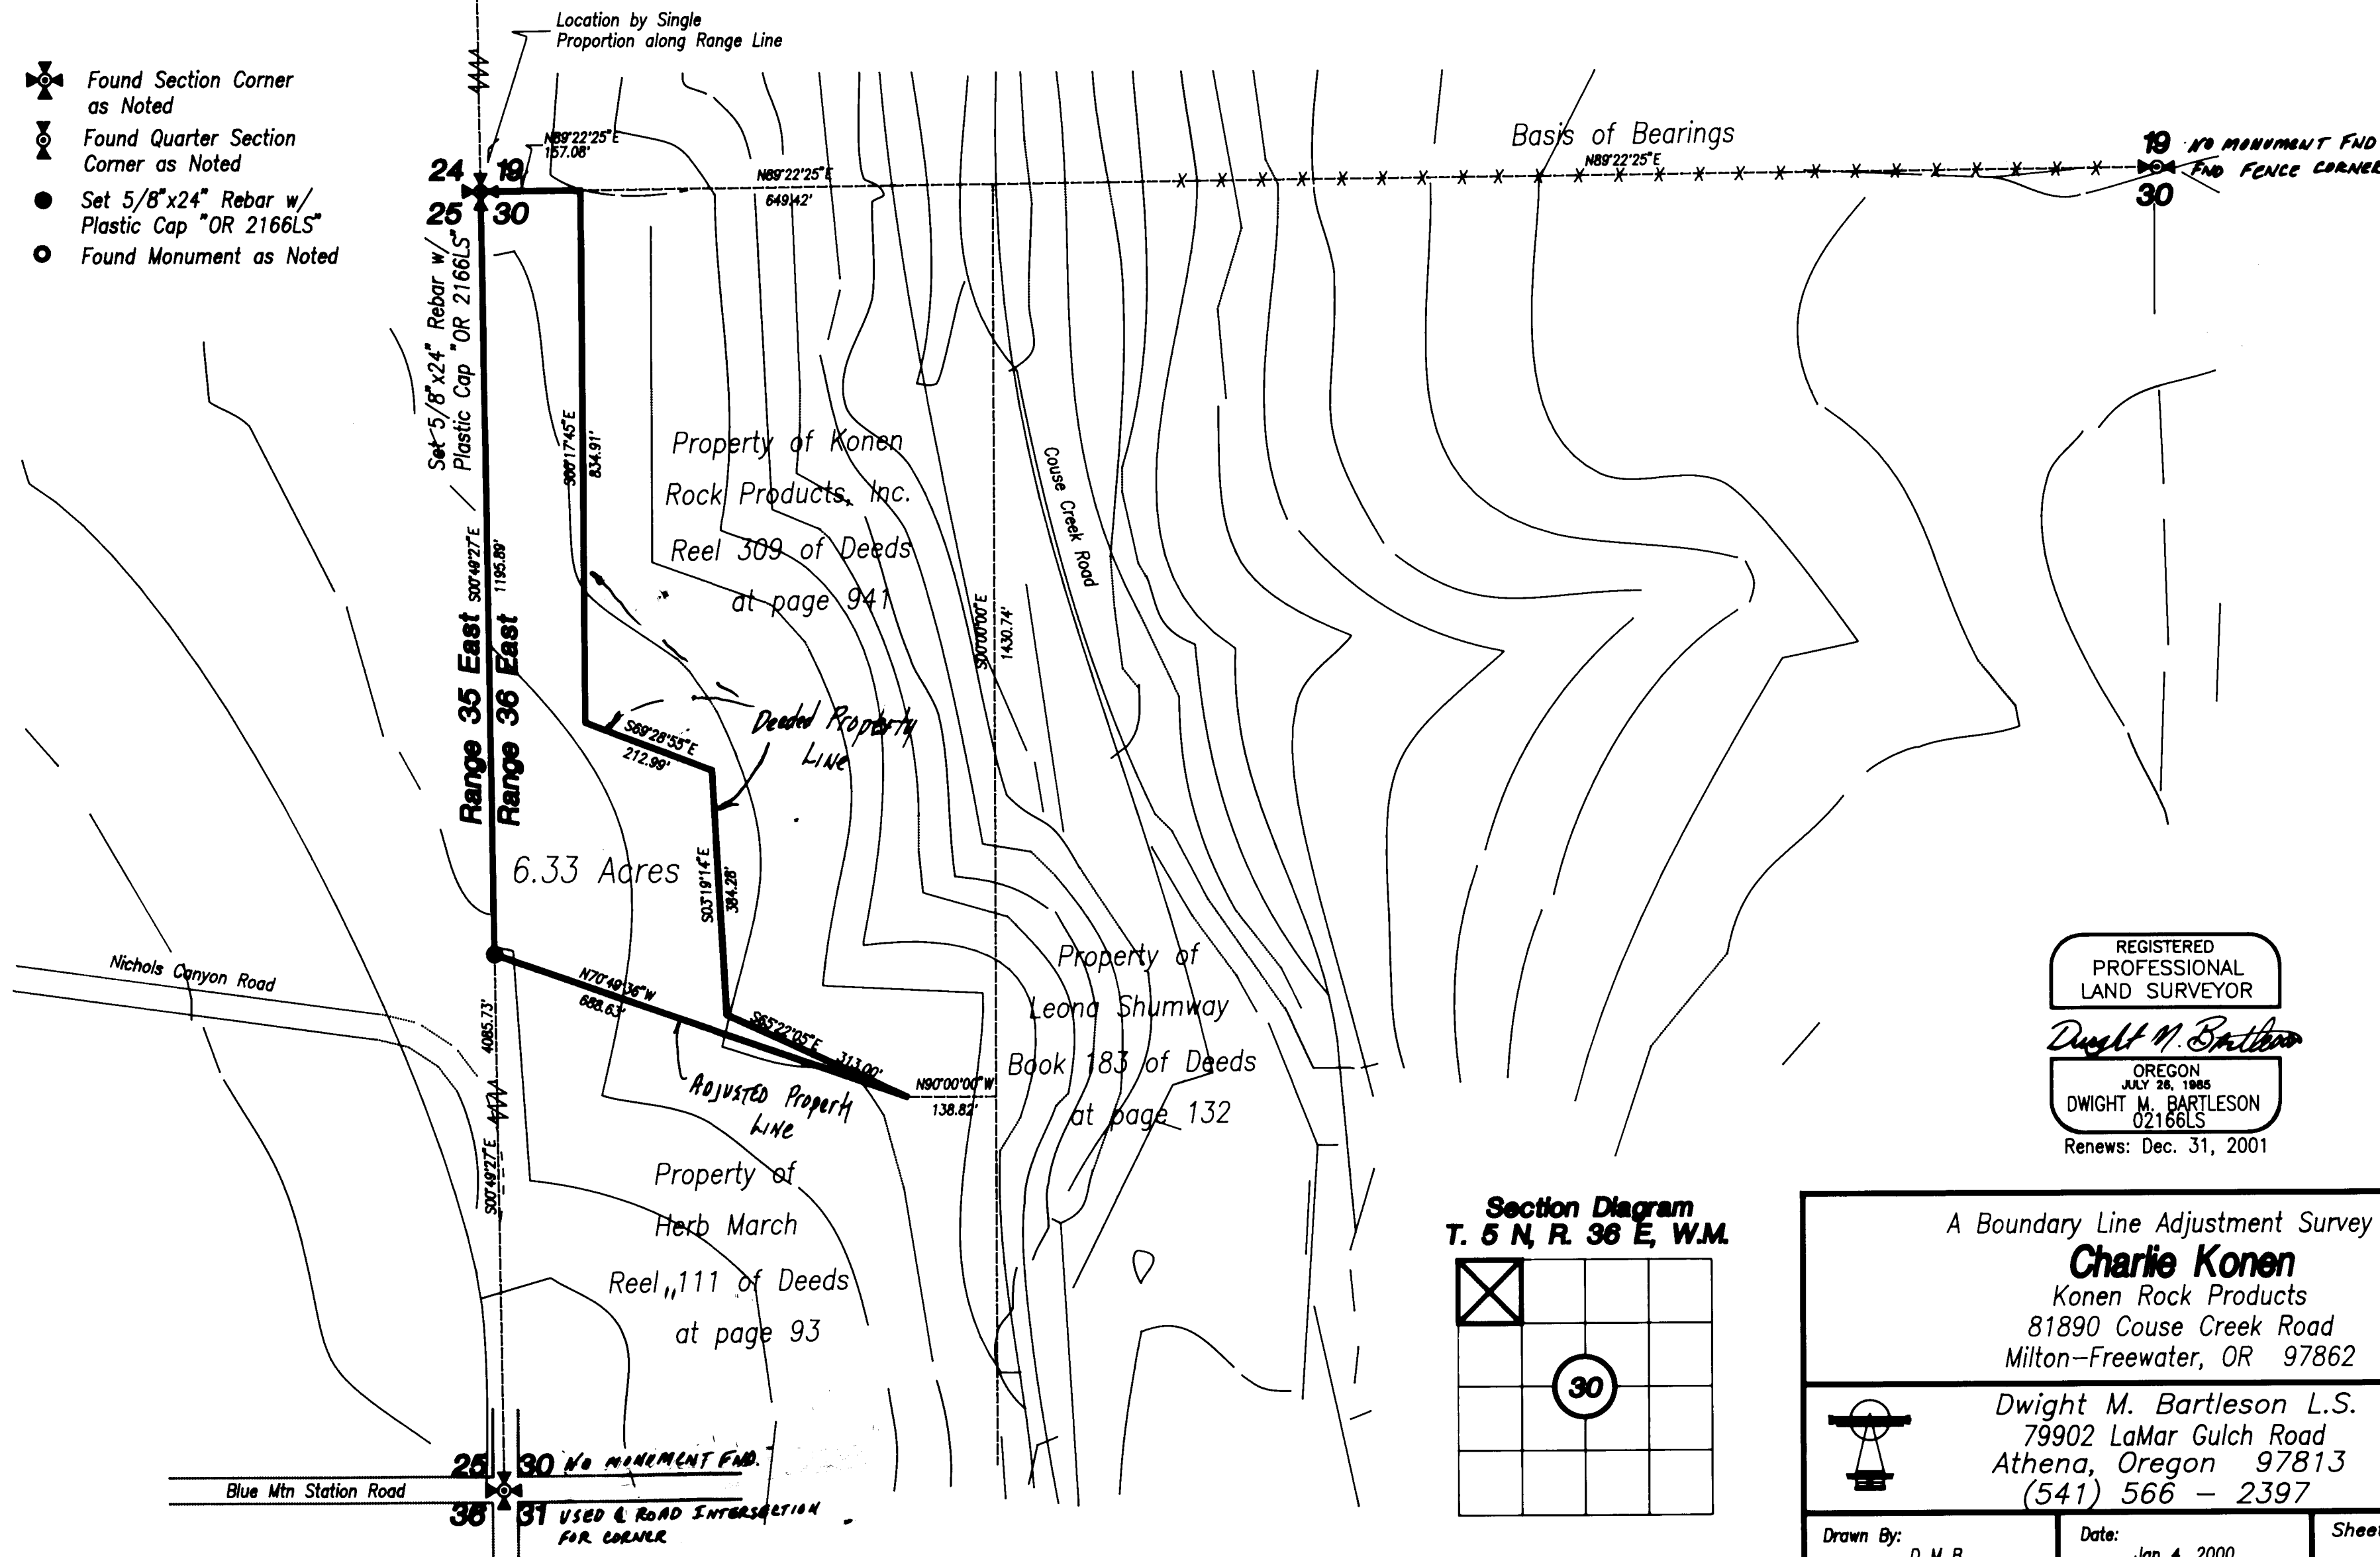

Being unable to locate the Northwest corner of Section 30, I established the position by single proportion along the range line between a fence corner of a North-South with an East fence line for the Northwest corner of Section 19, and the intersection of Nichols Canyon and Blue Mtn Station Roads.

I used the fence corner of the East-West with a South fence line for the Northeast corner of Section 30.
