

Description, T. 4 N R. 34 E. W.M.

Chains	Feet
<p>account of the zigzag course of the channel and the difficulty of getting through the thick brush that lines the banks and overhang the water.</p>	
<p>I would therefore respectfully suggest, that an arrangement, if it could be made, after the plan of the accompanying diagram would accomplish the object and perhaps be as equitable and satisfactory as any arrangement that could be made.</p>
