

Subdivision of T 5 N., R 39 E.

Chains		Feet
	<p>the South Fork of the Walla Walla River. Neither of these streams are large enough to be meandered. The township is well watered and although there are no lakes many different small springs are found throughout the township.</p> <p>Bone Spring Lookout Station is located near the south central part of section 28. The buildings of this lookout station are on the highest point of this township. Skyline Road extends through the central part of the township in a north and south direction. Lookout Mountain Road extends from this road in a easterly direction through the southeastern part of the township. This road connects with the Troy Road about 7 miles east of the township. A road loops through section 6. This road leads to Walla Walla, Washington, about 35 miles distant in a northwesterly direction, and also joins the Skyline Road in township 6 north, range 39 east. There is also a road extending south from this road along the top of Yellow Jacket Ridge, for a distance of about 3 miles. There are several good pack trails extending to all parts of the township.</p> <p>Part of the bottom land of the South Fork of the Walla Walla River is reserved for a cattle range but the remainder furnishes range for about 6,000 head of sheep during the summer months.</p> <p>No settlers are located in this township.</p> <p>No mineral was noted in this township.</p> <p>The average of a number of readings over all parts of the township gives a value of $21^{\circ} 30'$ E. for the mean magnetic declination. There is a range for 5° in local attraction.</p>
